

HAPPENINGS IN THE COPPER CITY

New Machinery For The Cleopatra Mine Arrives

Mix-Up In Restaurant Quelled With A Broomstick

JEROME, June 3.—The Cleopatra Copper Co. has received a lot of machinery for the mine, and in a few days will have the compressed air plant in operation again, which will enable them to work a great deal faster with the compressed air drill than has been possible to do when working the drills by hand.

He Ran Amuck.
Under Sheriff Neagle returned to Prescott this afternoon with a Mexican named Gonzales, who was sentenced yesterday to serve thirty days in jail for getting gay with a shot gun and threatening to shoot everybody in sight. He was considerably the worse for having drunk too freely of fire water.

Suspect Released.
Assistant District Attorney Sam Pattee, who came over to Jerome yesterday on official business, returned to Prescott this afternoon. A Mexican was arrested who was suspected of being implicated in the murder of George Smith, but upon being examined by Mr. Pattee was released.

Their Daughter Ill.
Mr. and Mrs. Alex. Lyons are very much worried today about their little three-year-old daughter, who is, they fear, very ill.

Death of an Infant.
The infant child of C. Gregor, a Mexican, died yesterday afternoon of cholera infantum, and was buried this afternoon.

The Sick List.
The three year old child of R. L. Wisdom is reported as being very sick.

H. Lyons is laid up with stomach trouble.

New Locomotives.
Two new locomotives have arrived at the junction for the United Verde and Pacific railroad, and will be put into commission in a few days. They are of the latest type and will help to improve the service on the road.

Visits Prescott.
Benj. Roum, manager of the New York store, went over to Prescott this afternoon.

Broomstick was Effective.
Mr. and Mrs. Dan Ryan, who run the American restaurant, hired a new cook the other day, who turned out to be a bad man, as is evidenced by the following incident. This afternoon he came on duty full and kept getting worse until this afternoon, when Mrs. Ryan went in the kitchen and he ordered her out and informed her that he was running that end of the restaurant business, so Dan Ryan went in to investigate, and they immediately mixed it up. The cook had a butcher's knife, and Dan got a rolling pin, and they were having a pleasant little time when Mrs. Ryan came in and took a swipe at the cook with a broom stick, who about this time thought things were getting too warm to be pleasant, so he made a hasty retreat through the rear of the kitchen, and has not been seen since.

A Brutal Husband.
The Mexican who was arrested on Monday afternoon for threatening his wife's life, had his hearing yesterday, and will have to spend thirty days in jail as a result of his rash act. Officer Hawkins now has two prisoners to feed, one on the outside of the jail, and the other on the inside. The prisoner's shepherd dog followed him to the jail, and there he has remained, never leaving him for a minute. Officer Hawkins feeds him when he feeds his master.

Recovered Her Horses.

Mrs. J. B. McAlister and Mrs. Stopen spent yesterday on the river. The latter went in search of some horses, which had strayed away. She was very fortunate in being in time to get the horses, for there is the usual rodeo going on. This is the taking of everything in sight, which runs loose, and all are driven in a band to Flagstaff, where there is now a buyer. These horses are shipped and sold, so that when a horse gets in the bunch he is practically gone, for one can hardly afford the expense of hunting the animals, with all the other expenses attached to such a case.

Coming Weddings.

There are a number of weddings reported to be on the tapis, and some of these are scheduled to take place within a couple of weeks.

An Enjoyable Social.

The social given by the Ladies' Aid society of the Methodist church was enjoyed by a crowded house.

The first number on the program was a recitation by Miss Catherine Dicus, and was well rendered. The second was a recitation, "The Blue and the Gray," by Miss Ida Thomas, and was heartily applauded.

The next was a solo by Mrs. Jerome Hoover, which was enjoyed by all, and which resulted in an encore.

Then came the cracker eating contest, which lasted three minutes. The one eating the most crackers was to have a box of choice candy. Miss Gladys Talbot was the winner.

Miss Nora Miller and Mrs. H. M. Gibbs sang a duet, and next was a recitation by Miss Myrtle Taplin, "Setting Up the Stove," which brought out all the little "jars" of family life. It was well recited.

The refreshments, consisting of strawberries and cream and ice cream and cakes of many varieties, were much enjoyed by all present.

A Camping Party.

Next Sunday a party consisting of L. M. Coleman and wife, Mr. and Mrs. Ralph Smith, Mrs. Armstrong, and Miss Stella Wager will leave Jerome for the Indian gardens, on a camping trip, which will last three or more weeks.

JEROME, May 30.—A party of mining men from Tucson and Bisbee are in town on mining matters. W. M. Adamson, of Douglass, W. B. Kelly, and Mr. Tovers are of the party.

James S. White, Jr., representing the United States Fidelity and Guaranty Co., is in town. He placed the agency of his company with Horace P. Merrill, the well known underwriter.

W. D. Woolwine, of Los Angeles, Cal., is registered at the Connor hotel. Mr. Woolwine was at one time extensively interested in mining in the Jerome district, and is here at present in connection with some properties in which he is interested. He is now in the banking business in the above named city.

Miss Lula Foster left Sunday for Prescott, where she will visit friends.

Tuesday night the Ladies' Aid of the Methodist Church gave a strawberry festival and musical entertainment. Some of the best musicians in town furnished the music; recitations and refreshments also added to the evening's enjoyment.

Walter Miller returned today from Prescott.

Jim Moran, an old timer in Jerome, and who has been working down in Cananea, Mexico, returned to Jerome Sunday. He reports that the United States is good enough for him and that Cananea is about the worst ever.

THE EASY MAN.

The world often laughs at the Easy Man,
And calls him a failure, son,
But always I think that to every case
Are always more sides than one.

I grant you he doesn't go through the world
With elbows aye arrogant bent,
Proud ever to think he's a fighting man,
And laughs at the blows he's sent;

His eye isn't hard with the business look
That chills when it rests on you,
But somehow or other he doesn't mind,
Though dollars he owns are few.

For there's in the heart of the Easy Man
A feeling he doesn't care
If Nature left out of his make-up all
The hustling that is not there.

For money appeals to no part of him,
So why should he fight to get
What he doesn't care for, and which
Brings no joy,

But worry and care and fret?
Philosophy his that is deep and sound,
Maybe. Or at least you can
Discern that good nature and peace
both go

With the creed of the Easy Man.

GREAT ACTIVITY IN MAYER AND VAL VERDE

Making The Brick For The New Big Smelter

Clarence Newhouse Is Injured By a Fall

MAYER June 3.—Clarence Newhouse, an employe of the Wood Dry concentrator plant, in process of erection, fell a distance of forty feet yesterday morning, sustaining a broken wrist and severe cuts and bruises about the head and body.

He was at work upon the rafters of the new building, when his foot slipped, and before he could recover his balance he lost his hold, falling the full distance with no intervening break.

It was at first supposed by his fellow employes that he had been killed. He was quickly taken to his home, where he speedily recovered consciousness, and is now doing well, being up and about, the broken wrist alone preventing him going to work as usual.

E. D. Trendwell will turn out in a few days in a brand new Stanhope rig, reversible to a two-seater. It will be the finest rig of its kind ever seen or used in this city, and its maker, F. R. Wagner, may well feel proud of his work. The entire vehicle, was built by Wagner, even to the painting, and it speaks well for the enterprise exhibited by him in providing facilities for turning out such a high class of work.

At Val Verde.

The work of turning out the brick for the new smelter has been commenced by Contractor Ed. Derham of Prescott, about 25,000 brick having already been made.

Mr. Derham states that he now has a force of ten men working, and will from now on turn out something over 10,000 brick a day, as he expects to have 250,000 ready by July, the entire contract calling for something over 500,000 brick.

The location for the new smelter has been staked out, plans prepared for the moving of all houses over the brow of the hill, closer to the railroad tracks, and the building of new brick quarters for the officials, these to be located on the high point of ground south of the proposed smelter site.

S. E. Bretherton, superintendent of the old smelter, took the train for Prescott Friday, en route for Los Angeles. Mr. Bretherton goes to southern Arizona to accept a new position as superintendent of a smelter there, he being the last of the old officials to leave Val Verde.

CENTURY MINE

Judge E. M. Sanford returned home yesterday from a hurried business trip in the eastern states, having come directly to Prescott from Ohio. He brings to his home town the gratifying news that he has succeeded while in the east in arranging for the financing of the Century mine, in which he is prominently interested.

When seen yesterday Judge Sanford expressed the utmost satisfaction with the result of his errand in the east, and explained that within the next thirty days he would renew work on the property, which he now has the assurance of being able to develop to its fullest extent. This mining property lies some eight miles from Prescott, in the famous Senator district, in fact, is but a short distance to the west of that set of claims.

In explaining his plans he said that because of work having been stopped for many months past, and by reason of the past winter this would be much preliminary work necessary including that of emptying the mine of water. It is his intention as soon as the mine can be put in shape to be properly developed, to begin work on a tunnel which will be extended 600 feet. This tunnel is intended to intersect and expose all the veins on the property, and cross-cut them in such a manner as to indicate the best way in which to begin taking out marketable ore.

The history of this property is much the same as that of other valuable locations in this district and emphasizes

SEARCHING PARTY

Prominent people of the Walker district are preparing to begin a searching inquiry into the mysterious disappearance of a miner named Hackney, who on May 11 was last seen at the Victor camp where he had been employed for many months.

At that time Hackney left for the avowed purpose of coming to Prescott to have some dental work attended to. Since then but one trace of him has been discovered, it having been learned that he reached town, and slept one night at the Sherman house.

Unofficial inquiry develops that after spending the night at the hotel, he declared his intention of returning to Walker. This is all that is now to be learned of his actions.

Friends at the camp have been uneasy at his continued absence for several days, and have at last decided to place the matter in the hands of county officials for a thorough investigation.

Inquiry at Walker shows that Hackney left the Victor camp expecting to be gone but a day or two, and was expected to return to work as soon as he should have had his teeth attended to. That he has not left the country with the intent of dropping out of sight purposely, is evinced by the fact that he has some \$30 due him at the mine, which he made no effort to collect before leaving. His personal effects were likewise left in camp, and his friends are led to believe that he has met with some accident or unlooked for trouble.

He is reported as a well-behaved, industrious man, who would not be at all likely to act so as to cause his friends any uneasiness, nor would he be apt to voluntarily leave the country without advising them of his intention.

Those who were most intimate with Hackney can offer no suggestion that might lead to a clue as to his whereabouts, and are mystified at his strange disappearance.

But one hint of any value has been offered, which points to the fact that he was not on good terms with certain other miners, who joined in a strike movement at a time when Hackney is said to have remained at work. This it is suggested, may have led to trouble since he left the Victor camp, but little weight seems to attach to this matter among those who are best informed.

It is given out that inquiry is to be at once instituted to trace Hackney's movements from the time he left the camp. May 11th. Jesse Robinson, Jas. Phipps, J. B. Burris and other well known residents of the Walker district, are interested in the strange happening, and it was reported late last evening, will devote their personal attention to assisting in solving the mystery.

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville Ga., always keeps a bottle of Chamberlain's Colic, and Diarrhoea Remedy at hand ready for instant use. Attacks of colic, cholera morbus and diarrhoea come on so suddenly that there is no time to hunt a doctor or go to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is one of the best medicines I ever saw. I keep a bottle of it in my room, as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by all druggists.

ACUTE RHEUMATISM.

Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Gleason, Gibson City, Illinois, writes, Feb. 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c, 50c, \$1. Sold by Brislley Drug Co.

the fact that this is not a poor man's country. After a small fortune had been spent in opening up the Century, with every indication pointing to it being a mine, operations were brought to a standstill because of lack of funds.

It is the fixed belief of Judge Sanford and others in Prescott who are interested in this portion of the county, that the Century will prove one of the big paying mines of Arizona, when once it can be developed to an extent to justify its practical working. Many residents of Prescott who are familiar with the mine's history, will be highly gratified to know that arrangements have been completed for again taking up the work of opening up this property. No time is to be wasted in beginning this work, and it is expected that a force of men will begin operations within the next thirty days.
